THE AUTOPSY.

Surgeon Lamb Explains All About It.

Washington, 27.—Acting Assistant Surgeon Lamb, who performed the autopsy upon the body of President Garfield, furnishes the following: There prevails to some extent an impression that the examination of the body of the late President Garfield was a careless and haphazard one, without order or method, and that the bullet was only found by accident. This impression is entirely incorrect. The order of examination was prearranged in a consultation for the purpose, and was carried out as far as the developments of the autopsy permitted. It was necessary to ascertain the extent and character of the injury, and if possible to obtain the missile. All things considered, the only way in which these objects could be accomplished was by first opening the abdominal cavity. Much has been said about the bullet being found in a basin, and the statement has been industriously circulated by prejudiced parties. The facts are as follows: The search for the bullet was prosecuted carefully, systematically and successfully, and the latter is no small matter in view of the fact that in many post mortem examinations even after careful, laborious persistent search the missile has not been found. It was first sought for near the groin, where it was expected by some that it would be found. Failing to find it there the pus channel was then followed up but this procedure made it necessary to remove the overlying organs. These removed parts were temporarily placed in a large china washbowl, until they could be examined in the order prescribed in the preliminary consultation. The pus channel led up to the fractured ribs and the vertebra. The situation of the opening of the exit of the bullet from the latter indicated the probability of its further track being in a hemorrhage clot in the tissues removed. While the examination of the vertebrae was being made one of the surgeons assisting turned his attention to the part removed, and discovered there the position of the bullet. There was nothing at all of the nature of accident in the manner in which it was found. It had formed for itself a cyst wall beneath the pancreas. After completing the examination of the vertebrae, I cut the cyst open and took the bullet out of it. It had been suggested by some that after the removal of the parts from the body, their relations could no longer be recognized. This difficulty could only occur to one who was unfamiliar with anatomy. No formal reply has yet been made to the many unjust and often senseless criticisms which have been so freely heaped upon this autopsy. I had expected that a complete exposition of the points criticised would have been made in the course of the testimony of medical witnesses, but with one exception there was afforded no opportunity, and the gentleman expected inadvertently omitted some of the particulars related above. I believe, therefore, the public should be made acquainted with the facts, in order that it may not either misjudge the surgeons nor suppose the autopsy was incomplete or was improperly conducted.

(Signed) D. S. LAMB,
Acting Assistant Surgeon.

Domestic Miscellany.

Louisville, 27.—James Bradley, a well-known business man here, has failed to the extent of about \$250,000. He owes local banks about \$165,000. He has been buying Texas Pacific shares, paying as high as 71, and the management has unloaded on him to an extent that has crushed him. He is a member of the well known stationery and publishing firm of Bradley, Gilbert & Mallory.

Tucson, 27.—News from Altar, Sonora, says that Governor Ortiz will be there on the 1st of December to look personally into the trouble existing between American mining companies and Mexican citizens. It is said that he has been badly deceived and thus led to make some mistakes. Although a lawyer of fine attainments, he seems to be imbued with monarchical ideas, which are strongly condemned by the people.

New York, 27.—The Central organization of the united trade and labor unions of New York, Brooklyn and Jersey City to-day expressed unqualified approval of the manifesto of "no rent for land," because it was a gift of the Creator to his creatures.

Toronto, 27.—Hanson cables Boyd that he will row him in March, 1882, for £1,000 sterling.

Seranton, Pa., 27.—T. P. O'Connor, M. P., lectured here last night to a large audience. He was accompanied by Mrs. Farnell and Miss Ford, who left for Chicago to attend the Irish national convention. The subscription amounted to \$500.

New York, 27.—Another feature of old New York is threatened with destruction. The department of docks propose to fill up that part of Coenties' slip opening inward from the line of South street to the bulkhead near Water street.

Halifax, N. S., 28.—The Bank of Prince Edward's Island has suspended owing to over drawn accounts. Its affairs are said to be in a bad condition. The cashier has disappeared. The capital of the bank is one hundred twenty thousand dollars and its notes in circulation \$200,000.

Small Pox in the Mail.

Washington, 28.—In consequence of alarm caused in some portions of the west by the reported spreading of small pox, Acting Postmaster General Hutton has issued an order to the effect that where a postmaster receives official information from the health officer of any port or town, that mail matter received is liable to communicate contagious disease, it should be his duty to refuse to accept such mail matter. The mail returned shall be held until the prohibition is removed, and not be forwarded to its destination until properly fumigated.
